## About Olivia Stover

This year's beneficiary was a victim of the Waukesha Parade attack. Olivia Stover was performing with her Xtreme Dance Team in the parade when she was struck by an SUV. She suffered two brain bleeds and needed surgery on her ankle. There will be outpatient medical appointments, rehabilitation, and counseling in the future. Her path to recovery will take time and may not be easy.

Olivia is an 8-year-old who brings joy into everyone's lives that she's gotten the chance to be a part of. She makes friends with everyone because of her selfless demeanor, witty personality, and confident attitude. She loves to dance, both with her dance team and solo, sing, swim, get creative with arts and crafts and bake cookies with her mom.

The Stover family will be incurring large medical costs associated with her care due to this tragic event. Any donations will go directly toward her current and future care and a long way toward helping this special little girl and her family.

A few years ago, we decided we needed to help a friend and what we saw on a small frozen lake was one of the most amazing things we had taken part in. We did not cure anything that day, but we did make kids smile, we did make kids laugh, and we taught a few kids how to fish.

This year we will try to give another child a special day. A day of fishing and fun, a day without the struggles any child or family should have to go through. This day will be for Olivia Stover. Please come out, have fun, catch fish, and help this family!
