

NON-USE OF SCHOOL PROVIDED TRANSPORTATION FORM (Extracurricular Activity)

While it is the school districts expectation that students utilize school provided transportation when it is provided, it is school district policy for parents to give one day's notice to the school administration that their child/student will not be utilizing the school provided transportation.

The school district is providing the student transportation for this event/activity. It does not consent to the student's use of an alternative method of transportation, and will not be responsible for the student if he or she fails to use the school district's transportation to and/or from the event/activity.

Please provide the necessary signatures.
