NEW peer group offerings
to keep Oconomowoc
students at their best! 😊

I GOT THIS!

Students will learn about the emotional roller-coaster that characterizes the Elementary and Middle School years. By improving emotional self regulation skills and learning to identify their emotions in both mind and body, students will develop healthy expression of feelings, coping and simple mindfulness skills to calm emotional responses and regulate their thinking at times when emotions run high.

Virtual Peer groups held through Goggle Meet

Monday's
