

What is P.B.I.S?

PBIS is a positive behavior support system designed to help students grow academically, socially, and emotionally. PBIS sets clear expectations and creates a positive atmosphere for learning. There are four major components of PBIS:

- behavioral expectations for every school environment
- lesson plans used to teach the students behavioral expectations
- an acknowledgement system
- clearly defined office discipline referral forms.

PBIS also collects data about our students and helps us determine areas of success and improvements if needed.
